

## 第7回仙台(ミニ)ワークショップ「無限次元解析と量子確率論」

The 7th Sendai Workshop on Infinite Dimensional Analysis and Quantum Probability  
under the auspices of JSPS-KOSEF Joint Research Program

本学大学院情報科学研究科. 2008.01.28 (Mon)

### PROGRAM (プログラム)

January 28 (Mon) Seminar Room 711 (7F)

13:15–14:00 Kimiaki Saito (Meijo University)

An infinite dimensional Fourier–Gauss transform and infinite dimensional Laplacians (Tentative)

14:10–15:00 Jaeseoung Heo (Hanyang University)

15:10–16:00 Fumio Hiai (Tohoku University)

Free pressure, free entropy and hypothesis testing

16:10–17:00 Un Cig Ji (Chungbuk National University)

Dilation of projective isometric representation associated with unitary multiplier

Organizing Committee

N. Obata (Chair, Tohoku University) S. Liang (Tohoku University) F. Hiai (Tohoku University) U.  
C. Ji (Co-Chair, Chungbuk National University)
