JSPS A3 FORESIGHT PROGRAM GSIS Homogenization and Numerical Analysis International Summer School

During a week period in summer, Research Center for Pure and Applied Mathematics (RCPAM) at Graduate School of Information Sciences (GSIS), Tohoku University invites highly regarded faculty from around the world to deliver graduate level courses in the mathematical sciences and their applications. This year we will focus on Periodic homogenization of PDE's with Numerical Analysis. Our instructors and applicants come from a diverse set of countries including China, France, Japan, Korea, Russia, the US, and our main goal is to broaden the education in the multicultural and international flavour of our School.
