3rd Conference on Operator Algebras and Applications

1 – 5 November 2011

Settat, Morocco

This conference (ICSOAA2011) is the third edition after the 1st in Setttat 28 Nov - 02 Dec 2005 and the 2nd in Marrakech 14 -18 April 2008 with the proceedings published as special volume in Journal of Operators and Matrices

The conference is intended to be a comprehensive, inclusive conference covering all aspects of theoretical and applied operator algebras. In this ICSOAA2011 meeting, we would like to honour Professor Mohamed Akkar from Bordeaux University, a great and social Moroccan mathematician.

We plan to organize several special sessions (invited and contributed)

Main topics of the conference are: C*-algebras, von Neumann algebras, Operator Theory, Noncommutative Harmonic Analysis, Noncommutative probability, Operator Algebras and Mathematical Physics, Operator Algebras and Dynamical Systems

Scientific committee:

- Pere Ara (Universitat Autònoma de Barcelona, Spain)
- Nathanial Brown (The Pennsylvania State University, USA)
- Joachim Cuntz (University of Muenster, Germany)
- Siegfried Echterhoff (University of Muenster, Germany)
- Jean Esterle (University of Bordeaux I, France)
- Yasuyuki Kawahigashi (University of Tokyo, Japan)
- David Larsen (Texas A&M University, USA)
- Mostafa Mbekhta (University of Lille, France)
- Gilles Pisier (University of Paris VI & Texas A&M University, USA)
- Carlos Rocha (Instituto Superior Técnico, UTL, Portugal)
